HERITAGE SERIES G12-65

12-inch guitar speaker designed for 4x12 cabs

12in	1.75in	65W	8&15	97
305mm	Voice Coil	Watts	Ohm	dB

Originally created in the late 70s using more modern materials and techniques for a higher power handling the G12-65 is widely regarded as one of the best guitar speakers ever produced for use in a 4x12 cabinet. With its fast attack and tightly controlled low end the G12-65 had become a firm favourite with hard rock players by the early 80s. The precisely tuned mid-range and crisp defined top-end contribute to an aggressive crunch sound that punches through the mix while the mid-range warmth and detail give weight and depth to single notes.
