This guitar speaker was developed to recapture the legendary sound of Celestion's 1970s 10s - a 10 speaker with a surprisingly meaty tone. Low in output but with the weighty low-end balance of a 12-inch speaker, the G10 Greenback features a complex mid-range and smooth vintage top-end. In small combos this speaker adds real class and when combined in a 4x10 gives rise to a raunchy full-bodied tone rich in low-end thump.
