The Midnight 60 continues Celestion's tradition of delivering rich, classic British tone in innovative new ways, featuring the moving parts that were inspired by the V-Type design, but with a different magnet assembly which has the effect of shifting the tonal balance to give a sonic character more reminiscent of Celestion's vintage G12L speaker. Whatever the genre, Midnight 60 provides an exhilarating sound in the classic Celestion style. Cleans are well balanced with just enough top end to make the high frequencies sparkle. Overdriven this speaker brings searing rock tones with plenty of low-end warmth and mid-band character.
