

## **Legacy Speakers**

# **HERITAGE SERIES G12M (LEGACY)**

### **General Specifications**

Resonance frequency Fs

Nominal Diameter 305mm / 12in

Power Rating 20W

Rated impedance 8 ohm or 15 ohm

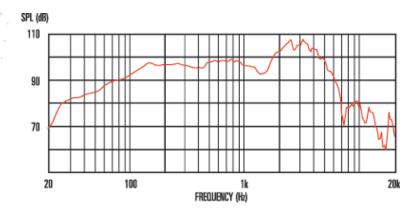

Sensitivity 96dB

Chassis type Pressed steel Magnet type Ceramic Magnet weight 0.99kg / 35oz Voice coil diameter 44.5mm / 1.75in Voice coil material Round copper Frequency range 75-5000Hz

DC resistance, Re 6.57 ohm and 12.13 ohm

75Hz

### 8 ohm Frequency Response

The original G12M of the 1960s was Celestion's first guitar speaker to use a ceramic magnet and paved the way for high power guitar amplifiers. The G12M uses a medium weight magnet to produce a sound that is smooth and warm but bright enough to hold its own against any rock backline. Known simply these days as the 'Greenback' the G12M's fabled 'brown tone' is characterised by a warm controlled low-end a rich vocal mid-range and a delicate detailed top-end. Loaded into a 4x12 and driven hard these speakers exude warm crunchy chords and sweet searing single-notes.
