General Specifications

Nominal Diameter	305mm / 12in
Power Rating	50W
Rated impedance	8 ohm or 16 ohm
Sensitivity	98dB
Chassis type	Pressed steel
Magnet type	Ceramic
Magnet weight	0.99kg / 35oz
Voice coil diameter	44mm / 1.75in
Voice coil material	Round copper
Frequency range	75-5000Hz
Resonance frequency Fs	75Hz
DC resistance, Re	6.2 ohm & 12.7

8 ohm Frequency Response

Celestion guitar speakers have been an important part of British guitar tone since the birth of Rock & Roll. Traditionally they're known for lively and vocal midrange character with plenty of sparkle and chime which turns into an exciting growl when overdriven often compressing when pushed hard. Inspired by our favourite modern American tones the A-Type is a different kind of guitar speaker from Celestion. Of course it still has the musical and revealing three-dimensional quality that is the heart and soul of a Celestion guitar speaker however it features a more laid-back midrange which reveals body and complexity in the upper register accompanied by full and rounded low frequencies. The A-Type conveys a fluid even performance with an increased headroom threshold that allows your amp's tone to shine through. Clean players will love the smooth articulation; for rockers the brooding powerful low end threatens thunder that's only a heavy riff away!
