## **Neo V-Type**

12-inch lightweight neodymium guitar speaker

The Neo V-Type delivers the familiar and addictive modern vintage sound of the V-Type, but gives you a weight reduction of almost 50%. This sweet sounding speaker has a superbly balanced sonic signature that imparts a vintage musicality to your tone. Clean sounds have just the right amount of upper-mid chime and HF sparkle to add clarity and definition. Crank it up for a sizzling overdrive and some raw rhythmic grind, and thanks to a little extra Celestion magic you can expect a little extra definition and note separation for your solos and searing, single note lead lines.

#### **General Specifications**

Nominal Diameter 305mm / 12in Power Rating 70W

Rated impedance  $8 \Omega \text{ or } 16 \Omega$ 

Sensitivity 98dB

Chassis type Pressed steel
Magnet type Neodymium
Voice coil diameter 44mm / 1.75in
Voice coil material Round copper
Frequency range 75-5000Hz
Resonance frequency Fs 75Hz

esoriance frequency is 75112

DC resistance, Re 6.64  $\Omega$  & 12.85  $\Omega$ 

### **Mounting Information**

Cut-out diameter 283mm / 11.1in Diameter 309mm / 12.2in Magnet structure diameter 124mm / 4.9in 7.9mm / 0.31in Mounting hole dimensions Mounting hole PCD 297mm / 11.7in Number of mounting holes 94mm / 3.7in Chassis depth (inc gasket) Magnet depth 28.5mm / 1.2in Overall depth 120mm / 4.7in Unit weight 1.9kg / 4.2lb

#### 8 Ω Frequency Response
